

100 Days of Nonviolence Action Plan

OBJECTIVE

To gather 100 youth to take a stance against youth violence.

THE PROBLEM STATEMENT

We, leaders of our generation, experience too much senseless violence. It is tearing our communities apart. We are taking a stance against the senseless violence. When we work together, youth are powerful.

Our power has changed history, strengthened communities and made a difference.

Today, we charge youth to continue making a difference.

Here is our strategy:

Phase One:

We will stand out as leaders in our community by displaying positive attitudes.

Phase Two:

As leaders, we will also serve as role models to the younger youth by mentoring them.

Phase Three:

And lastly, we will not encourage the promotion of violence, by liking or sharing violent acts on social media.
